

MEDCOASTLAND-NET

Project reference: ICA3-CT-2002-10002

Funded under: FP5-INCO 2

Mediterranean co-ordination and dissemination of land conservation management to combat land degradation for the sustainable use of natural resources in the mediterranean coastal zone

From 2002-10-01 **to** 2006-09-30

Project details

Total cost:

EUR 1 305 001

EU contribution:

EUR 1 305 001

Coordinated in:

Italy

Topic(s):

Funding scheme:

THN - Thematic network contracts

Objective

Specific objectives of the Thematic Network include the effectiveness of dissemination of research, studies and projects carried out on Land Degradation Management (LDM) in the Mediterranean coastal zone. The network aims at providing research and project reviews, indications-guidelines to implement LDM through the assessment of interactions among major factors of resources management such as soil, water, biota, human activity, cultural resources, soil erosion, land degradation. Major expected impacts will be:

- better understanding of research and research needs ;
- better communication structure within players involved in landscape and soil degradation management, improved accessibility to information on relevant research;
- better approach to implement real participatory eco-system and economic-productive based land-soil degradation and conservation management.
